

# OpenLM Reporting Hub System Requirements

The OpenLM Reporting Hub generally requires a Windows or Linux operating system, with the following minimal hardware requirements:

## For small databases (under 100Gb):

- RAM - 8GB
- CPU - 2.1Gb Dual-Core
- Storage - Minimum twice the size of the OpenLM database, with room for growth.

## For large databases (over 100Gb):

- RAM - 16GB
- CPU - 2.1Gb Quad-Core
- Storage - Minimum twice the size of the OpenLM database, with room for growth.

## Component Requirements
