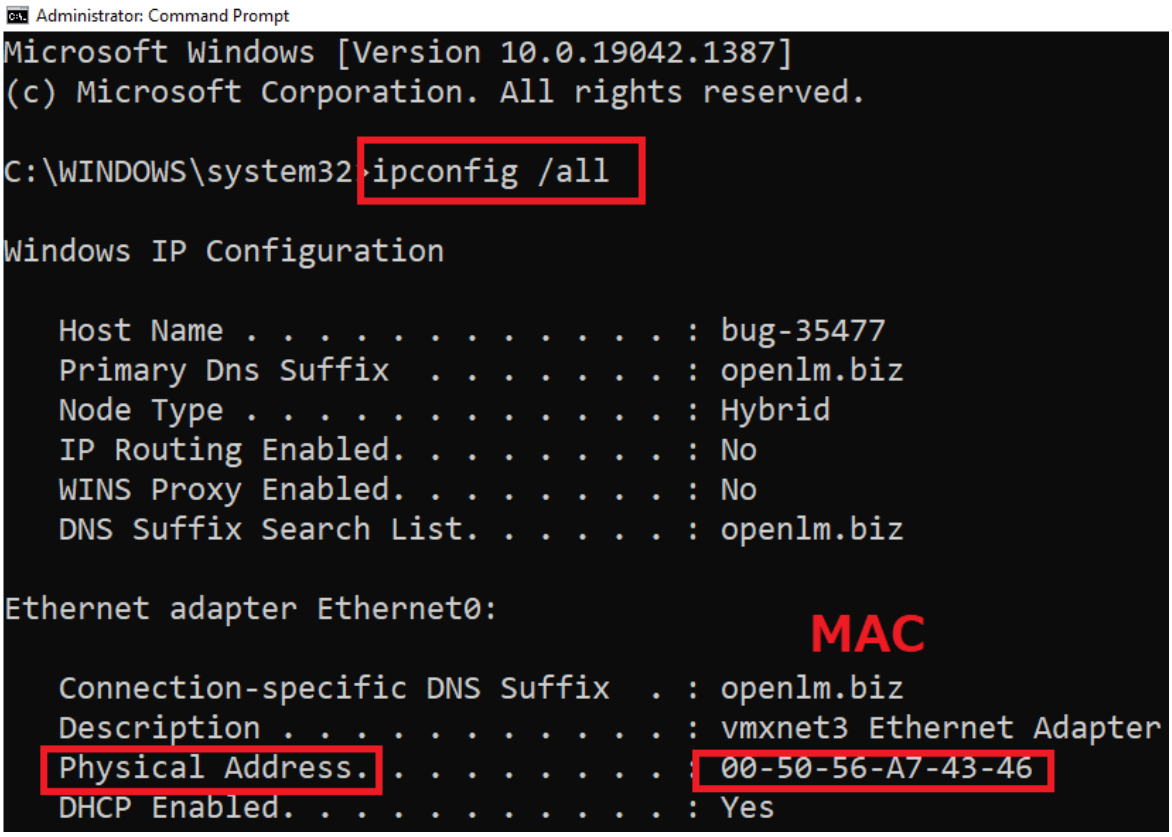
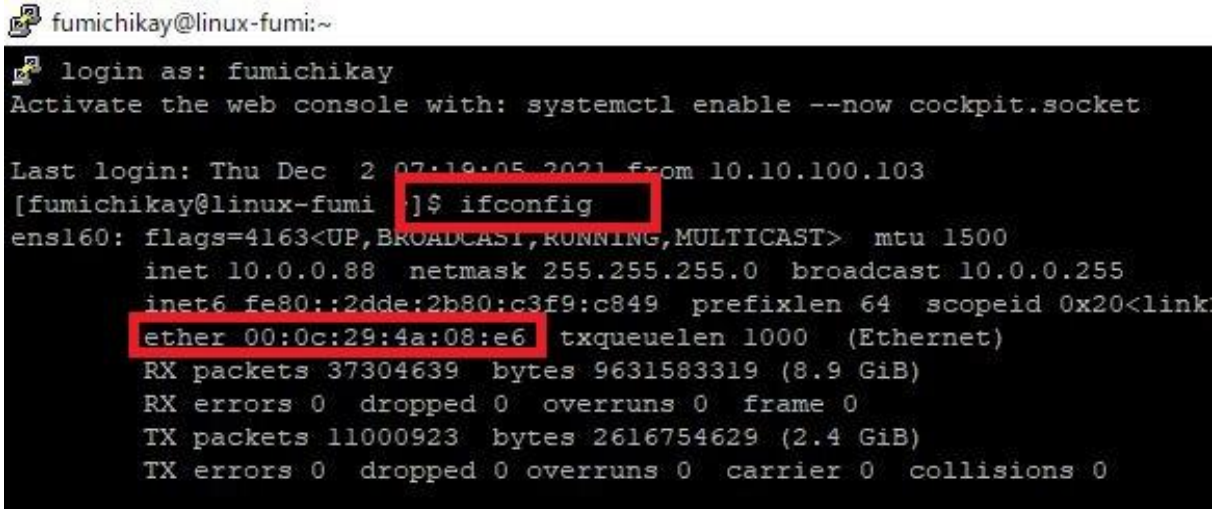
How to find your static MAC address

When you upgrade to OpenLM version 21 you need to make sure that you have a static MAC address. If you don't know your MAC address, then follow these simple steps.

On a computer running Windows operating system:



On a computer running Linux operating system:



fumichikay@linux-fumi:~
login as: fumichikay
Activate the web console with: systemctl enable --now cockpit.socket
Last login: Thu Dec 2 07:19:05 2021 from 10.10.100.103
[fumichikay@linux-fumi ~]$ ifconfig
ens160: flags=4163<UP,BROADCAST,RUNNING,MULTICAST> mtu 1500
